Are You Handling Parts **THE OLD WAY?** Save Time and Money with **OUR WAY!**

Masline can save you time and money by providing value-added services that simplify your production processes. By delivering parts to your door that are lead formed to your specifications, inspected, packaged and labeled – in the exact quantities needed and ready for your production line – we save you those tedious and costly steps that drag down production time. And since Masline’s customized, pre-packaged parts go directly to the production line, there’s no need to keep a large inventory in your stockroom. As always, we pride ourselves in providing the highest quality parts and service to our valued customers.

Masline Services Include:

- **Lead Forming:**
Customizing capacitors, resistors, diodes, transistors and more
- **Labeling:**
For JIT, Kanbar, Lean, Pull/Push, VMI, Consignment, Shared MRP or other processes
- **Kitting and Packaging:**
Custom packing done to your specifications in the exact quantities needed
