Dear Customers,

Masline Electronics is committed to the health and safety of our employees, as well as continuing to serve our customers and industry. We are following the health guidelines from the CDC and local health departments. We have implemented a travel and customer visit suspension until further notice. All employees that can work remotely have been invited to do so. Remaining on-site employees are practicing social distancing.

Masline Electronics is open and fully operational as we currently serve a number of essential customers in the medical, defense, utility and emergency manufacturing marketplaces.

Please remain safe and vigilant during these unpredictable times.

Sincerely,

Masline Electronics
